

TURBOHAND

HANDLED ASCENDER

263401

The Turbohand ascender uses proprietary technology and to make climbing ropes safer, faster and easier.

Featuring a proprietary roller the making the Turbohand glide much smoother, it also reduces dangerous wear and tear on the device.

The ergonomic rubber handle extends into the upper part of the spine to allow for a double-handed grip. The handle and the rope are aligned on the same plane for the best handling and efficiency.
